Professional Summary

Computer Science graduate currently pursuing an M.E. in Software Systems at BITS Pilani, Dubai. Strong foundation in software development, programming, databases, and web technologies, with hands-on experience developing applications using Java, Python, JavaScript, and Flask. Experience with machine learning concepts, natural language processing, REST APIs, document processing, and text similarity techniques. Interested in software engineering, backend development, and AI-driven software systems.

Technical Skills

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript, REST APIs, Flask, Responsive Design

Databases: SQL, MongoDB

Libraries and Frameworks: Tkinter, Tesseract OCR, Google Text-to-Speech (gTTS)

Developer Tools: Git

Core Competencies: Software Development, Database Design, Algorithm Design, Object-Oriented Design, Operating Systems

Projects

Resume Matcher and Skill Analyzer

- Developed a Flask-based web application to compare candidate resumes with job descriptions.
- Applied TF-IDF vectorization and cosine similarity to calculate textual similarity between resumes and job descriptions.
- Implemented document text extraction for PDF, DOCX, and TXT file formats.
- Built a skill extraction module to identify matching skills and skill gaps against job requirements.
- Generated reports containing similarity scores and skill-gap analysis to support resume evaluation.

Real-Time Multilingual Translator Application

- **Developed a Python-based desktop application for translating text, speech, and image-based content.**
- **Integrated Google Translate API to support multilingual text translation.**
- **Implemented speech recognition for voice-to-text conversion and multilingual translation workflows.**
- **Used Tesseract OCR to extract text from images for translation.**
- **Integrated Google Text-to-Speech (gTTS) to generate audio output from translated text.**
- **Designed an interactive graphical user interface using Tkinter to improve application usability.**

Education

M.E. in Software Systems **2026–2028**
Birla Institute of Technology and Science (BITS Pilani), Dubai Campus

Bachelor of Technology in Computer Science and Engineering **2021–2025**
Keshav Memorial Institute of Technology **CGPA: 7.84/10**

Class XII (Intermediate Public Examination) **2021**
Vision 40 Junior College **Percentage: 94.2%**

Certifications

- **Machine Learning Specialization – DeepLearning.AI (Andrew Ng)**
- **Full Stack Data Science and AI – Naresh IT**
